Dear Josh:

Do you any better off than  
I re: the biographical material  
on Tatum that Corcoran wants?

It's relatively easy for  
me to do the part on his and my  
scientific collaboration, but  
in other respects I never knew  
him intimately as I did Boris  
Slepnev, Horowitz, Sterling  
Emerson and a few other  
collaborators in Science.

If you could do the rest,  
it wouldn't be difficult for  
me to describe the nature of  
our scientific collaboration.

Anyway, let me know what  
the prospects are, will you?

Regards  
Beets
